

Caratteristiche salienti:

1. Queste macchine per l'intestazione fredda sono completamente automatiche e facili da usare con poca formazione, dotate di madri solide per produrre vuoti per bulloni, viti, rivetti e altri componenti simili. Il meccanismo di taglio e knock-out ha dispositivi in sicurezza che fermeranno qualsiasi incidente grave se si verifica una funzione anormale nelle macchine.
2. È stata fatta una disposizione positiva knock-out sul 1° e 2° pugno per eliminare la possibilità che le parti si attaccassero a questi pugni durante le operazioni.
3. Su alcune cariche extra, le macchine saranno dotate di frizione pneumatica e sistemi di lubrificazione centralizzati automatici che forniscono una quantità sufficiente di lubrificazione a tutta la superficie del cuscinetto.

BOLT MAKER

Auto multi-station cold Upsetting Former is a specialized machine tool with high precision, high productivity and more automation among metal forging machinery. Cold upsetting technique and cold upsetting formers are used as an important means for producing different kinds of bolts.

CUT OFF PART

Due to the high accurate multi-function compound gripping mechanism, there are translational wide open gripper, nut gripper and turnover wide open gripper, and these 3 grippers can be interchanged and shared at will. However the key breakthrough design is that the turnover wide open gripper can both turn over and widely open, it expands the production range for different kinds of abnormal parts and reduces the manufacturing cost for the dies.

THE SWING OF
GRIPPER IS DRIVEN
BY CONJUGATE CAM

High accuracy main sliding block is designed to be connected with rear wing for letting it run stably and precisely, the bottom of front and back wing is adopted super wearing inserted copper plate with self lubrication, it can ensure accuracy and extend service life. The post stations of punching tool can be fulfilled the function of reverse punching.

PRODUCT DISPLAY

We abide by the principles of honesty, credibility, and mutual-benefit, and do our best to serve clients and customers both at home and abroad. With our top-notch professional knowledge and trading experience, we have seen our market development ability and actual business growth with an increasingly faster pace. We sincerely look forward to working with you to facility your company's foreign market development and China market expansion. Let's build a great future together!
