

Brief introduction

DL 1000 inverted vertical wire drawing machine

1. The main motor: 45 kw - 6 p speed regulation of frequency conversion motor
2. Type inverter: 45 kw (vector control)
3. The drum: Φ 1000 mm diameter, material: Carbide alloy surface, the surface hardness HRC55 - HRC62
4. Take-up wire : active take up wire.

specification

1. Max drawing speed: 40-45 m/min
2. Max incoming diameter : Φ 10-16mm
4. The biggest reducing: 200 s
5. The largest storage line: 2 .5T
- 7.Drum diameter: 1000mm
- 8.Motor: 45KW
- 9.oil seal : imported seal
10. Line pressing method: pneumatic
