

Función de la máquina:

1. Estas máquinas de títulos de frío son completamente automáticas y fáciles de operar. Casi no hay entrenamiento, y están equipados con moldes sólidos. Pueden estar en blanco para pernos, pernos, remaches y otros componentes similares. El mecanismo de corte y eliminación tiene equipos seguros. Si se produce alguna función anormal en la máquina, puede evitar cualquier accidente importante.
2. Se ha realizado un partido positivo en el primer y segundo golpe para eliminar la posibilidad de pegar estos puños durante la operación.
3. Con alguna carga adicional, la máquina estará equipada con embrague neumático y un sistema automático de lubricación centralizada para proporcionar una cantidad suficiente de lubricación para todas las superficies de rodamientos.

PRODUCTION AREA

Provide You With A Variety Of Products Meet
The Different Needs Of Customers

Screw With Washer

Multi-stage
Special Shaped Screw

Flange Head Screw

Ordinary Screw

Miniature Screw

Semi-hollow Rivet

DETAILS SHOW

Heading machine is the fastener industry whole plant equipment with automatic thread rolling machine supporting the professional equipment cold heading machine. Its purpose is selected, such as carbon steel, stainless steel, aluminum, copper and other metal wire, with a suitable mold, according to wire made allowable pressure ratio in effect under the slider crank rod driven,

SAFETY INSTRUCTIONS

The head machine is a professional cold upsetting forming machine which is matched with automatic wire rolling machine in the whole plant of fastener industry.

Its purpose is to the selected such as carbon steel, stainless steel, aluminum, copper and other metal wire, with appropriate mould, according to the allowable pressure wire than, under the effect of crank-shaft connecting rod drive the slider, automated, fast after the required size of the wire will be automatically shear, extrusion in the mould for needed fastener head type, stem diameter, facilitate thread rolling, or become a qualified rivet type fastener. The heading machine automatically processes the wire into semi-finished products.

1 marco del cuerpo está hecho de soldadura de placa de hierro
Dos piezas de repuesto están hechas de fundición
3 interno está hecho de acero de rodamiento

SCREW MAKER

One die two blow heading machine. widely used to produce standard and non-standard screw. the machine is easy to operate and stable in performance
