

Galvanizing equipment. Galvanizing plant.

Barrel plating automatic production line can be adapted to a variety of small parts, standard parts and various types of plating require a substantial increase in labor productivity. Plating has provided a full set of expectations from the exclusion of water and drying equipment.

1. Large roll can be very PP PP- castable, CNC drilling.
2. The transmission system using a transmission gear coupling, electromagnetic wave velocity of each station.
3. Automatic weighing feeding device can reduce labor intensity.
4. passivation automatic folder barrel washing equipment and automatic rejection of water colors dryer.

We can dump the water from the plating material was dried until a full equipment. Dedicated AC

No	name	size	Materials and instructions	unit	QUA	note
I	Tank					
1	Pre-degreasing tank	1500 × 900 × 1100	3mm304 stainless steel plate, surrounded by strengthening and insulation	A	1	Made in China
2	Chemical degreasing tank	1500 × 3200 × 1100	3mm304 stainless steel plate, surrounded by strengthening and insulation	A	1	Made in China
3	Electrically released sump	1500 × 1800 × 1100	15 mm PP plate, PP board packaging by strengthening and surrounded	A	1	Made in China
4	Barrel plating bath	1500 × 4500 × 1100	15 mm PP plate, PP board packaging by strengthening and surrounded	A	3	Made in China
Fives Hydrochloric acid wash tank						
6	Wash three cans	1500 × 2400 × 1100	15 mm PP plate, PP board packaging by strengthening and surrounded	A	3	Made in China
7	Clean water tank quadruple	1500 × 3200 × 1100	15 mm PP plate, PP board packaging by strengthening and surrounded	A	1	Made in China
8	Double wash-basin	1500 × 1600 × 1100	15 mm PP plate, PP board packaging by strengthening and surrounded	A	2	Made in China
9	Passive tank	850 × 1600 × 900 Haomi	15 mm PP plate, PP board packaging by strengthening and surrounded	A	2	Made in China
10	Wash three cans	850 × 2700 × 900 Haomi	12 mm PP plate, PP board packaging by strengthening and surrounded	A	3	Made in China

11	Light cleaning four times			850 × 3600 × 900 Haomi	12 mm PP plate, PP board packaging by strengthening and surrounded	A	1	Made in China
12	Molten zinc tank			5000 × 1300 × 1100	6mmQ235 plate, surrounded by strengthening	A	1	Made in China
III	Mechanical part							
1	Rolling Gantry Rail	CBG-1		Siemens import motor running				
2	High passive driving bucket clip	CBJ-1A		Travel motor Taiwan's Teco				
3	rail			100 × 60 square steel rail				
4	High iron box			150 × 150mmsquare steel				
Fives	Pillar and support			60 × 80mmsquare steel				
6	Bottom frame	^ H 200		60 × 80mmsquare steel				
7	Wet tank bottom with PP board			8mmPP				
8	Transmission mechanism			Each gear coupling rotary table				
9	Weighing feeder			Dump feeder, vibration feeder, weighing feeding dolly				
IV	Electrical Control							
1	PLC automatic control cabinet			Control 4 drivers				
2	Auxiliary equipment control cabinet							
3	With the car with manual control box					A	2	Made in China
4	touch screen			A 10.4-inch color screen				
Fives	Inverter			5.5K				
6	Stainless steel trough, A3 bracket							
7	Aluminum positioning groove, hit the block							
8	Truck Line			Advanced 40-core flat cable				
9	Slip line trolley							
10	Proximity switches, photoelectric switches			S18SN6DL				
11	thermostat	DTA4848R1						
12	Electric heating device off automatically low							
13	Bridge, threading pipe, wire							

[Galvanizing equipment](#) There galvanized bucket and rack plating equipment, we can do it according to your requirements.

If you have any questions, please feel free to contact me.
