

Zinc plating equipment . zinc plating plant.

Barrel plating automatic production line can be adapted to a variety of small parts, standard parts and various types of plating needs substantial increase in labor productivity. Plating has been provided to expect from the rejection of the full set of water and drying equipment.

1. Large roller can be extremely PP PP-casting materials, CNC machine drilling.
2. The transmission system adopts each station of a transmission gear coupling, electromagnetic speed.
3. Automatic weighing feeding device can reduce labor intensity.
4. passivation automatic folder barrel washing equipment and automatic rejection of water color dryer.

We can offer from plating material dumped water drying until a full set of equipment. Special ac

NO	Name	Size	Materials and instructions	unit	Qua	Note
1	Tank body					
1	Pre-degreasing tank	1500×900×1100mm	3mm304 stainless steel plate, surrounded by strengthening and insulation	pcs	1	Made in China
2	Chemical degreasing tank	1500×3200×1100mm	3mm304 stainless steel plate, surrounded by strengthening and insulation	pcs	1	Made in China
3	Electrically released sump	1500×1800×1100mm	15mm PP plate production, surrounded by strengthening and encapsulating PP board	pcs	1	Made in China
4	barrel plating tank	1500×4500×1100mm	15mm PP plate production, surrounded by strengthening and encapsulating PP board	pcs	3	Made in China
5	Hydrochloric acid wash tank	1500×2400×1100mm	15mm PP plate production, surrounded by strengthening and encapsulating PP board	pcs	1	Made in China
6	Washing triple tank	1500×2400×1100mm	15mm PP plate production, surrounded by strengthening and encapsulating PP board	pcs	3	Made in China
7	Washing quadruple tank	1500×3200×1100mm	15mm PP plate production, surrounded by strengthening and encapsulating PP board	pcs	1	Made in China
8	Washing double tank	1500×1600×1100mm	15mm PP plate production, surrounded by strengthening and encapsulating PP board	pcs	2	Made in China
9	passive tank	850×1600×900mm	15mm PP plate production, surrounded by strengthening and encapsulating PP board	pcs	2	Made in China
10	Washing triple tank	850×2700×900mm	12mm PP plate production, surrounded by strengthening and encapsulating PP board	pcs	3	Made in China
11	light washing quadruple	850×3600×900mm	12mm PP plate production, surrounded by strengthening and encapsulating PP board	pcs	1	Made in China
12	Melting zinc tank	5000×1300×1100mm	6mmQ235 steel plate, surrounded by strengthening	pcs	1	Made in China

III	Mechanical part	
1	Rolling gantry rail traffic CBG-1	Walking with imported Siemens motor
2	High passive driving the clip barrel CBJ-1A	Walking Motor Taiwan's Teco
3	Rail	rail 100×60mm square steel tube
4	High Rail frame	150×150mmsquare steel tube
5	Pillar and support	60×80mmsquare steel tube
6	Bottom frame H 200	60×80mmsquare steel tube
7	tank bottom with PP wetted plate	8mmPP
8	Transmission mechanism	Each station of a gear coupling rotation
9	Weighing feeder	The dump feeder, vibration feeder, weighing mobile feeding vehicles
IV	Electrical control	
1	PLC automatic control cabinet	control 4 sets drive
2	Auxiliary equipment control cabinet	
3	Accompanying car with a manual control box	
4	touch screen	10.4 inch color screen
5	Inverter	5.5K
6	Stainless steel trunking, A3 bracket	
7	Aluminum positioning groove, hit the block	
8	Truck thread	40 advanced core flat cable
9	Slip line trolley	
10	Proximity switches, photoelectric switches	S18SN6DL
11	Temperature-controlled device DTA4848R1	
12	Electric heating low level automatic cut-out device	
13	Bridge, wearing a wire tube, wire	

pcs 2 Made in China

[Zinc plating equipment](#), there are barrel zinc plating and rack plating equipment, we can make it according to your requirement.

For any questions, please feel free to contact me.
