

Machine Main Features:

1. With large power, and main shaft is fixed steady. machine has high high rigidity as a whole.
2. three rounds of automatic centering stability, particularly advantageous to the axial feed, suitable for rolling large size, high strength, length-extended hollow tube, etc.

Technical Parameters:

ZPA28-32round die thread tolling machine				
Max. Rolling pressure			KN	320
Rolling spiline range	Max.diameter	Radial feed	mm	90
		Axial feed	mm	50
	Max.pitch	Radial feed	mm	6
		Axial feed	mm	8
Rolling die range	Max.outer diameter		mm	220
	Aperture		mm	75
	Max. width		mm	180
Max. Center distance btw. Main axis			mm	300
Main axis rotation			r.p.m.	62
Main axis inclination				±5°
Free travel			mm	0-16
Center height			mm	950
Gross power			KW	14.2
Dimensions□L×W×H□			mm	1600×1680×1650
Weight			Kg	4080
