

Linha de produção automática de revestimento de barril pode ser adaptado a uma variedade de peças pequenas, peças padrão e vários tipos de revestimento que precisam de um aumento substancial na produtividade do trabalho. O revestimento foi previsto para esperar a rejeição de todo o conjunto de equipamentos de água e secagem.

1. O rolo grande pode ser extremamente PP, materiais de fundição PP, perfuração de máquina CNC.
2. O sistema de transmissão adota cada estação de um acoplamento de engrenagem de transmissão, velocidade eletromagnética.
3. O dispositivo de alimentação com pesagem automática pode reduzir a intensidade do trabalho.
4. Equipamento automático de lavagem de barril de pasta de passivação e rejeição automática de secador de aquarela.

Podemos oferecer desde a secagem do material de galvanização despejado em água até um conjunto completo de equipamentos. Rica experiência especial acumulada em cuba de lavagem galvanizada passivada com solução de zincato e equipamento de cores de clipe, rolo e modelo PP para uma patente nacional.

A configuração principal

- 1, máquina PLC adota **Produtos japoneses da Mitsubishi Electric Corporation;**
- 2, inversor por **Mitsubishi Electric Corporation do Japão** produtos;
- 3, tela sensível ao toque com produtos da empresa elétrica do estado de Kunlun;
- 4, interruptores de proximidade e interruptores fotoelétricos de **Alemanha Produtos elétricos da Turck;**
- 5, contadores e relés térmicos **Produtos da Suzhou Siemens Electric Company;**
- 6, tanque de desengorduramento químico **Aquecimento elétrico de aço inoxidável do tubo de aquecimento 304, potência de 48KW, 220V;**
- 7, tanque de água quente feito de **Aquecimento de tubo de aquecimento elétrico de aço inoxidável 304, potência 10KW, 220V;**
- 8, reservatório de elevação anódica **Aquecimento por tubo de aquecimento elétrico em aço inoxidável 304, potência de 24KW, 220V;**
- 9, tanque de ativação usando aquecimento de tubo de aquecimento elétrico de aço inoxidável 304, **potência 10KW, 220V;**
- 10, controle automático de temperatura usando produtos Yan Ling Electric Company;
- 11, rastreamentos de caminhões usando o avançado cabo plano de 40 núcleos da Shanghai Nanyang Fujikura;
- 512, Todo o gabinete de controle, design razoável, aparência elegante e requintada, fácil de operar, de modo que umidade e corrosão. Fiação do gabinete de controle estruturada, número de linha claro e preciso, todos os elementos possuem etiquetagem clara no painel de operação em inglês.
- 13, sistema com **funções de controle automático e manual**, em circunstâncias normais, o sistema está em operação automática, como o tempo de residência da peça em cada ranhura, níveis de tráfego e velocidade de elevação. Cada início de faixa, parada, promoção, redução de operação e mudança podem ser controlados manualmente, mas desta vez a outra parte ainda é controlada automaticamente. Quando um problema local precisa de reparo, a condução passa para a operação manual, a linha de produção pode continuar a funcionar.
- 14, Programa do sistema com função de interrupção, alimentação e memória, fácil de lidar com situações inesperadas.
- 15, o sistema está equipado com uma gama completa de dispositivos de parada de emergência para evitar acidentes.
- 16, para a diversidade de produtos do usuário, o sistema pode ser facilmente modificado para executar a sequência do processo.

PRODUCT FEATURES

All applications and functions of
automatic electroplating line

Linear plating Automatic production line for mechanical parts, automobiles, motorcycle parts and other metal surface oxidation, nickel, chrome, galvanized and other process requirements, but also for engineering plastic surface of the metal plating, such as car decoration pieces, Mobile phone shell and signs and so on.

Phosphorization
production line

zinc electroplating line

Automatic plating production line is mainly applicable to all kinds of small parts and various non-standard items. The equipment is mainly composed of manipulator, tank body, drum, transmission mechanism, conveying device and so on, to meet the various products of different processes to the plating production.

Nickel barrel plating line

Zinc barrel plating line

BARREL TYPE ZINC PLATING ON ROD STEEL BAR

Aluminum profile anodizing line

Electroplating wastewater treatment equipment consists of regulating pool, adding medicine box, reducing pool, neutralizing reaction tank, pH adjusting pool, flocculation tank, inclined tube sedimentation tank, van filter press, clear water pool, air floatation reaction, activated carbon filter , Such as plating rinse water, waste bath, equipment cooling water and rinse ground water, the water contains chromium, zinc, copper, nickel, cadmium and other heavy metal ions and acid, alkali , Cyanide, etc., after treatment, safe discharge.

The exhaust gas treatment system mainly includes the suction hood \ suction pipe \ FRP fan, the exhaust gas treatment tower, the circulating pump, the tank and the pipeline. Mainly involved in the production of electroplating production of various types of chromium emissions, cyanide gas, acid waste gas, alkali waste gas and other comprehensive waste gas. After discharge standards.

THE MAIN CONFIGURATION

- 1, PLC machine adopts Japanese Mitsubishi Electric Corporation products;
 - 2, inverter by Japan's Mitsubishi Electric Corporation products;
 - 3, touch screen with Kunlun-state electrical company's products;
 - 4, proximity switches and photoelectric switches from Germany Turck Electric products;
 - 5, contactors and thermal relays Suzhou Siemens Electric Company products;
 - 6, chemical degreasing tank 304 stainless steel electric heating tube heating, power of 48KW, 220V;
 - 7, hot water tank made of 304 stainless steel electric heating tube heating, power 10KW, 220V;
 - 8, anode lift sump 304 stainless steel electric heating tube heating, power of 24KW, 220V;
 - 9, activation tank using 304 stainless steel electric heating tube heating, power 10KW, 220V;
 - 10, Automatic temperature control using Yan Ling Electric Company products;
 - 11, Truck traces using Shanghai Nanyang Fujikura's advanced 40-core flat cable;
 - 12, All control cabinet, reasonable design, elegant, exquisite appearance, easy to operate, so that moisture and corrosion. Control cabinet wiring structured, clear and accurate line number, all elements have clear labeling on the operation panel in English.
 - 13, system with automatic and manual control functions, under normal circumstances, the system is in automatic operation, such as the residence time of the workpiece in each groove, traffic levels and lifting speed. Each lane start, stop, promotion, reduction in operation and the shift can be controlled manually, but this time the other part is still controlled automatically. When a local problem in need of repair, driving to go to the manual operation, the production line can continue to run.
 - 14, System program with interrupt, power and memory function, easy to handle unexpected situations.
 - 15, system is equipped with the full range of emergency stop devices to prevent accidents.
 - 16, for the user product diversity, the system can be easily modified to run the process sequence.
-

HIGH QUALITY ACCESSORIES

High quality accessories, strong and durable,
reduce the frequency of replacement

FINISHED PRODUCT AFTER PLATING ZINC/NICKEL/CHROME

COMPANY PROFILE

Harbin Rainbow Technology Co.,Ltd comes from China National Machinery Import and Export Corp. Harbin branch. The main business is manufacturing cold forging machine, Bolt Maker, Nut Maker, Part Former, Screw Heading Machine, Thread Rolling Machine, Wire Drawing Machine and Mesh Belt Furnace, Zinc plating plant. etc.

We abide by the principles of honesty, credibility, and mutual-benefit, and do our best to serve clients and customers both at home and abroad. With our top-notch professional knowledge and trading experience, we have seen our market development ability and actual business growth with an increasingly faster pace. We sincerely look forward to working with you to facility your company's foreign market development and China market expansion. Let's build a great future together!

We have established reputation in countries such as India, Iran, US, Europe and Southeast Asia where we have core customer bases. Meanwhile, we are well respected by the domestic factories and the customers in the mechanical and electrical business.

Nowadays, more and more reputed companies compete in a long-term cooperation with us. That's why we can provide our customers with the best quality products, the best price, and the best service.

Q: Are you factory or trading company?

A: We are the biggest dealer of machines related to fastener area, and we are the agent of China biggest bolt former manufacturer, heat-treatment furnace, and so on.

Q: Why should we choose you?

A: We choose the best supplier out of hundreds of similar factories, which assures that our product is of the best quality.

B: We have more than 20 years experience in this area.

C: We can provide all machines to equip an entire bolt/nut production line.

D: Fully support in buyer workmen trainin

E: Fully support in after-sales service.

Q: What about your price?

A: The price based on your details request, like your product size, machine model, order quantity, and so on.

Q: How about the shipping?

A: ocean shipping, air transportation.

Q: Do you offer after-sale service?

A: yes, we offer full and good service for all our clients. We will always be there for you, if you have any questions.
