# THREAD ROLLING MACHINE PART OF THE STRUCTURE

## TRANSPORTATION MATERIAL

Sloping filling-90 degree obliquity with main slider

## TRANSPORTATION MATERIAL

Sloping filling-30 degree obliquity with main slider

## NO HEAD SCREW

Through no head screw feeding system, the system solves problems in no head 'screw bottleneck with advanced value in machinery.

## ORBITAL BRACKET

To stabilize filling progress in order to avoid floating head and increase fine quality.

## FORCIBLE OIL CARRYING

It replaces traditional acrylic oiler which damaged main slider. This precision filter system not only lowers direct cost in production but also extends life usage in recycle.

## AUTO FEEDING SYSTEM

Replaced cam by auto feed system, effectively avoids the cam abrasion in the production process.
